JAP COLONIZATION MENACE GREEKS TAKE U. S. CITIZENS

ACTION TO PROTECT U.S. FROM MENACE OF JAP IMMIGRATION IS ASKED

(By Associated Press)
DENVER, Colo., June 17.—Demand that congress take action to protect the nation's interest against the "growing menace of Japanese immigration in colonization" was made in a resolution submitted to the annual convention of the American Federation of Labor here today.

The declaration was submitted by J. M. McGuire of the San Francisco Labor Council and has the approval of the Japanese Exclusion League of California, the Los Angeles Anti-Asian association, the Japanese Exclusion League of Washington and various patriotic, civic and fraternal bodies on the Pacific coast.

Labor leaders declare the resolution to be the most drastic measure on the Japanese question ever considered by organized labor.

It calls for the "absolute exclusion for the future of all Japanese immigration, not only male, but female, and not only laborers, skilled and unskilled, but farmers and men of small trades and professions, as recommended by Theodore Roosevelt, and would give permission for temporary residence only for tourists, students, artists, commercial men and others."
